

SFI NEW INTRODUCTION
7" Glacier Ridge • Rustic Grade Oak
Available in Three Colors

Trendy and elegant. In this wide-plank, wire-brushed oak, the grain is highlighted with white against the richly stained wood. Glacier Ridge's fashionable 7" wide boards feature, in addition to the subtly exciting white-accented grain, lots of natural character - with knots and mineral streaks throughout. The look is fantastic and current, a must-see for those with a fine sense of style.
